(g) Remarks Applicant and its predecessors has watered stock from this source for more than 40 years last past and claims a subsisting vested right so to do, but in the late summer and fall the supply without impounding is inadequate for a large band of sheep, hence it is proposed to install troughs. Applicant and its predecessors have also used the public range available to stock watering at this source for grazing their livestock for more than 40 years, and now has, and at all times has had, such range fully stocked.

DESCRIPTION OF PROPOSED WORKS

The water will be diverted from the spring by means of a short
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits. If water
pipe line and impounded in troughs.
is to be stored in reservoirs, it should be so stated and the location of the reservoir should be given with reference to the legal subdivisions.

- Estimated cost of works \$100.00
- Estimated time required to construct works one year
